How do i redeem my planet fitness points

Looking forward to the meeting tomorrow, where we’ll see everyone and discuss our strategies in detail. Planet Fitness offers a loyalty program called PF Perks that provides members with great rewards and benefits. To join the program, simply go to your local club's reception with an invitation or proof of membership. The PF Perks program is available at all 2,039 Planet Fitness locations across the US and abroad. Members can earn points for participating in various activities such as referring friends, joining fitness classes, and making purchases. To redeem rewards, members need to accumulate enough points. The available rewards include free food and drinks, discounts on club merchandise, and even a free month of membership dues. Planet Fitness offers three types of memberships: No Commitment, Classic, and PF Black Card. The Classic Membership requires a 12-month commitment but provides unlimited access to the club. The PF Black Card Membership is the most premium option, offering perks like guest passes and spa services. PF Premium offer better value at 27.99€ /month which includes unlimited guest visits, massage beds, and haircuts. The Classic Membership at Planet Fitness comes with an annual fee, which boosts your monthly payments by around 70% over a year. On the other hand, the PF Black Card membership costs $29.99 per month and includes a one-time startup fee of $79.95 but also grants access to exclusive perks and benefits without any long-term commitment.
